PROFILE

UX/UI Designer with a focus on UX Research, UX Strategy, and UI Design. Experience working on cultural, educational, and commercial projects, conducting user research, designing interfaces, and developing user-centered digital products.

LANGUAGES

- Spanish – Native
- English – Upper-Intermediate (B2)

EXPERIENCE

[IMEK Centro de Investigación en Mercadeo & Desarrollo](#)

Product Designer & UX Researcher (Volunteer) Mar 2026- Present

- Led the digital product strategy for the foundation, conducting a UX/UI, SEO, and information architecture audit to identify opportunities for improving usability, clarity, and conversion.
- Implemented the Value Proposition Canvas framework to align the value proposition with the needs of strategic partners, funders, and key users.
- Designed the user research roadmap, including early adopter recruitment and a Jobs To Be Done (JTBD) methodology to validate needs and guide evidence-based product decisions.

[BoteroMedia](#)

Shopify Web Designer and Developer Jun 2025 - Nov 2025

- analyzed traffic metrics and user behavior to propose data-based improvements.
- created SEO performance reports and insights to optimize digital campaigns.
- applied UX and web accessibility principles to improve navigation and conversion.
- coordinated tasks between the design, development, and content teams.
 - Websites Created: [Backyard&Pergolas](#), [Magnus Barber Supply](#) y [American U.S Regatta](#)

[SemillaLab, Laboratorio de contenidos digitales](#)

Researcher Jan 2023 - Aug 2025

- I co-designed participatory methodologies for 26 school workshops in Ciudad Bolívar, strengthening mental health through visual narratives.
- I created a replicable methodological guide, showing improvements in emotional expression and the use of school spaces.
- I presented the results at three academic and cultural events, such as:
 - “Festival Internacional de la Imagen” ([DOWNLOAD CERTIFICATE](#))
 - “Novena versión del Encuentro de Semilleros de Investigación y Creación” ([DOWNLOAD CERTIFICATE](#))
 - “3er Encuentro de Semilleros en Investigación Creación Audiovisual” ([DOWNLOAD CERTIFICATE](#))

FEATURED PROJECTS

[Phyigital Experience – Physical Booklet + Augmented Reality App](#)

Maloka Interactive Museum, Bogotá Jul 2024- Nov 2024

- Team Leader in a collaborative project with Maloka (Bogotá): I coordinated a multidisciplinary team and led the research, digital product design, and development of physical materials. We created an extended experience for families, consisting of a printed booklet and an augmented-reality app designed to help plan and gamify the museum visit. I was responsible for user research, interface design and prototyping, visual adaptation, booklet design, and stakeholder management.

[Video Game for People on the Autism Spectrum – Neuronautas](#)

Neuronautas Oct 2023

- Neuronautas is a space-themed video game designed to provide a playful and relaxing experience for people on the autism spectrum, while also promoting awareness of neurodivergent experiences. It is accessible and enjoyable for all audiences. In this project, I served as Product Manager, leading its development, and was responsible for UX Strategy, UX Research, Game Design, and interactive development, ensuring an accessible and sensory-friendly experience.
